PRODUCT OVERVIEW

WARRANTY INFORMATION

Mistec's MOBI-COOL is a stand-alone, high-pressure, low-noise misting made for outdoor cooling. The built-in pressurization system is capable of mixing atomized water to the airflow, thus producing a dramatic cooling effect to the surrounding area. Quiet, effective, and fully autonomous with a high capacity water tank that guarantees from 3 up to 5 hours of operation. This unit is perfect for gardens, parks, verandas, beaches, public places, bars, restaurants, hotels, swimming pools, sport events, parties, factories, warehouses, shopping malls, dancing clubs, ceremonies, and any other areas needing to be cooled. Fill up the tank with clean fresh water, plug-in, switch on. Featuring...

- BPS: all units are equipped with By-Pass System (built-in by-pass valve), recirculating the water inside the pump, lowering overheating risk. Fog systems driven by BPS fog pumps do not require any drain valves to empty the pipeline so that no water is wasted on the ground.
- QES: units supplied with QES low noise motors (Quiet Engine System) offer low consumption and ensure great reliability.
